We offer 2-3 internships at the Comoé research station in the Comoé National Park in Ivory Coast (Côte d’Ivoire). Projects will be on plant-bee or plant-ant interactions starting in April 2020. The exact topic and experiments will be discussed after application. The internship can be credited as excursion module or as part of a Bachelor thesis.

Requirements:

- Physical and mental fitness (tropical weather conditions, long travel distances, distance to medical care facilities)
- Willingness to autonomously carry out and respect all safety measures and rules (e.g. visa, vaccinations, disease preventions, international travel insurance)
- Willingness to become acquainted with a different culture
- Application to a TUM ohne Grenzen or PROMOS stipend with the International Center of the TUM
- Fluent German or English language, basic knowledge of French is helpful but not necessary

For further questions and application please contact us (Chair of Plant-Insect-Interactions): Prof. Dr. Sara Leonhardt (Hans-Carl-von-Carlowitz-Platz 2, Room 1.2.1.3, Email: leonhardt@wzw.tum.de) or Fabian Rüdenauer (Room 1.2.1.2, Email: fabian.ruedenauer@tum.de).
